

Fellow Pilots of Council 81:

I would like to ask for your nomination as your Captain Rep. I'm presently a 757 Captain in SLC, living in Highland, Utah, and have been based in SLC since June of 2001.

My ALPA background includes service as your current Contract Admin Committee Chair. I am also currently a member of the Pilot-to-Pilot group. My prior experience includes work in contract administration and strike prep committees.

I would like the opportunity to continue to serve you, bringing your concerns and views to the MEC while also providing information from the MEC to you. Your expertise and involvement will be paramount as we move beyond SOC and completion of the merger. We will no doubt face issues regarding scope, pay rates, sick leave, and unforeseen problems, particularly as we move toward Section 6 negotiations in the near future.

Please submit the nomination ballot you will receive from ALPA National in September. Thank you for your consideration and I look forward to discussing your concerns in the future.

Fraternally,

Mike Spain
